

CAD Drafter/Designer

Company

Nor'Eastern Trawl Systems Inc. known as NET Systems is an innovative leader in the design and manufacturing of commercial fishing gears for the world industries. NET Systems provides many netting solutions with their unique world's strongest netting called Ultra Cross knotless netting. The company founded in 1978 and located on Bainbridge Island, Washington State.

NET Systems is looking for a full-time CAD Drafter who is interested in a challenging position that requires flexibility, responsibility, and creative problem solving analytical skilled team player.

CAD Drafter Work Duties and Responsibilities

CAD drafters use computer-aided design software to create technical design drawings and schematics used to manufacture products. These drawings incorporate the input of engineers and can specify dimensions, codes, materials, and production methods. Continuous communication and collaboration with engineers, in-house sales, logistics, and assembly teams is required. Drafters will develop a strong knowledge of NETS standard product range, which encompasses trawl nets, trawl doors, Codends, purse seine nets, barrier nets, and industrial netting projects. Drafters must also be flexible to accept some variation in work related duties as assigned.

CAD Drafter Requirements, Desirable Skills, and Abilities

Individual should have 1-3 year experience as a CAD drafter or completed at least an Associate's Degree program in drafting/drawing requires. Professional certification can enhance advancement opportunities. Individual should have working knowledge with office computer tools such as Microsoft Office. Individual should have competence in 2D and 3D CADD, preferably AutoCAD experience/proficiency. Competence in FEA and/or CFD is a plus, and knowledge of marine equipment, materials, and environments preferably as specifically related to fishing gear.

Other Information

The company offers benefit options including medical, dental, vision, supplemental options, 401(k) retirement, as well as paid holidays, and PTO (paid time off). US work eligibility is required. NET Systems is an equal employment opportunity employer.
